

For those moments when Proper Grammar matters!

\$99⁹⁵

Proper Grammar™ utilizes the Houghton Mifflin CorrectText™

Grammar Correction System, a powerful expert system that uses context-sensitive rules of grammar to analyze writing and to detect and correct errors in syntax, usage, punctuation, spelling, and style. It is the first and only

interactive language-aid system on the Amiga that corrects documents by identifying the grammatical function and relationships among words. Proper Grammar™ takes the guesswork out of good grammar by detecting 95% of all writing errors. It identifies and corrects embarrassing errors making it a valuable proofreading tool designed to improve writing. Use with your word processor. Open, check, edit and save WordPerfect™, ProWrite™, QuickWrite™, Pen Pal™, Excellence!™, TextCraft Plus™, KindWords™, TransWrite™, Scribble!™, and ASCII files.

System Requirements: Amiga™ with 1 megabyte RAM, and either a hard drive or 2 floppy drives.

WordPerfect, ProWrite, QuickWrite, Pen Pal, Excellence!, Scribble!, KindWords, TransWrite, and TextCraft Plus are trademarks of their respective owners.

The perfect accessory to your favorite word processor.

Interactive Grammar Correction.

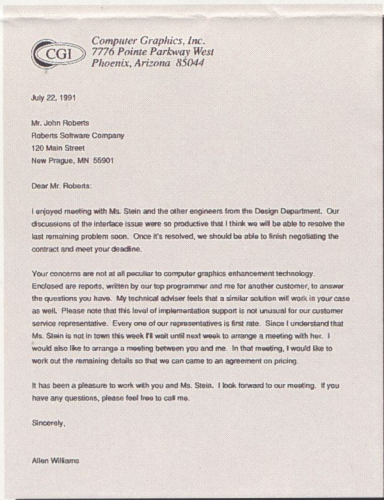

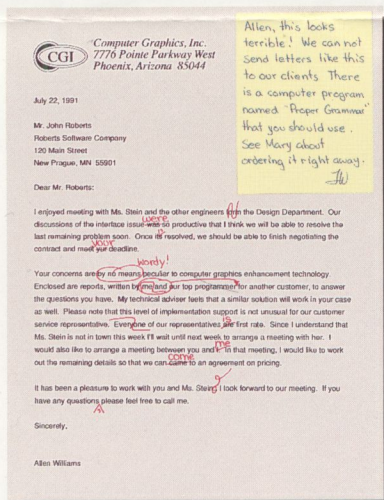

Check your documents for errors in grammar, spelling, punctuation, and style. As errors are found in your document Proper Grammar highlights the text, tells you what is wrong, and lets you make the changes directly on screen. All processing is completely interactive. Error messages are clear and informative. Helpful explanations are given where appropriate.

Use with your Word Processor.

Open, check, edit, and save Word Perfect™, ProWrite™, Pen Pal™, Excellence!™, TextCraft Plus™, KindWords™, TransWrite™, Scribble!™, and ASCII files. You can also create a document with Proper Grammar's fast, built-in text editor, correct it, and save it in the format of your word processor or text editor. AREXX and Clipboard are also supported.

Complete Document Statistics.

Proper Grammar includes complete document statistics which display readability information along with word, sentence, and paragraph counts. Readability information includes: Flesh Reading Ease Score, Flesh Reading Ease Grade Level, Flesh-Kincaid Score, and Gunning's Fog Index. It is ideal for business, personal, government, and educational use.

It's not perfect until it's proper.

Proper Grammar™ utilizes the Houghton Mifflin CorrectText™ Grammar Correction System, a powerful expert system that uses context-sensitive rules of grammar to analyze writing and to detect and correct errors in syntax, usage, punctuation, spelling, and style. It is the first language-aid system that corrects documents by identifying the grammatical function and relationships among words. While Proper Grammar™ solves frustrating problems, it is also a positive tool that makes the most of your writing skills and inspires confidence in the quality of final documents.

Proper Grammar™ takes the guess work out of good grammar by detecting 95% of all writing errors. It identifies and corrects embarrassing errors making it a valuable proofreading tool designed to improve writing.
